ABOUT ME

My name is Alexandra, you can call me Alex or Ace. I'm 16.

I love reading and because of my love of reading I am very well spoken and have good written communication skills. I can work independently and in a team. I am also very good at learning on my feet and ask questions when needed. I am apparently very mature for my age, take feedback well and can hold a conversation really well. I'm able to stand long periods on my feet and would love to be able to contribute to your team.
